

PENNINGIAN

61

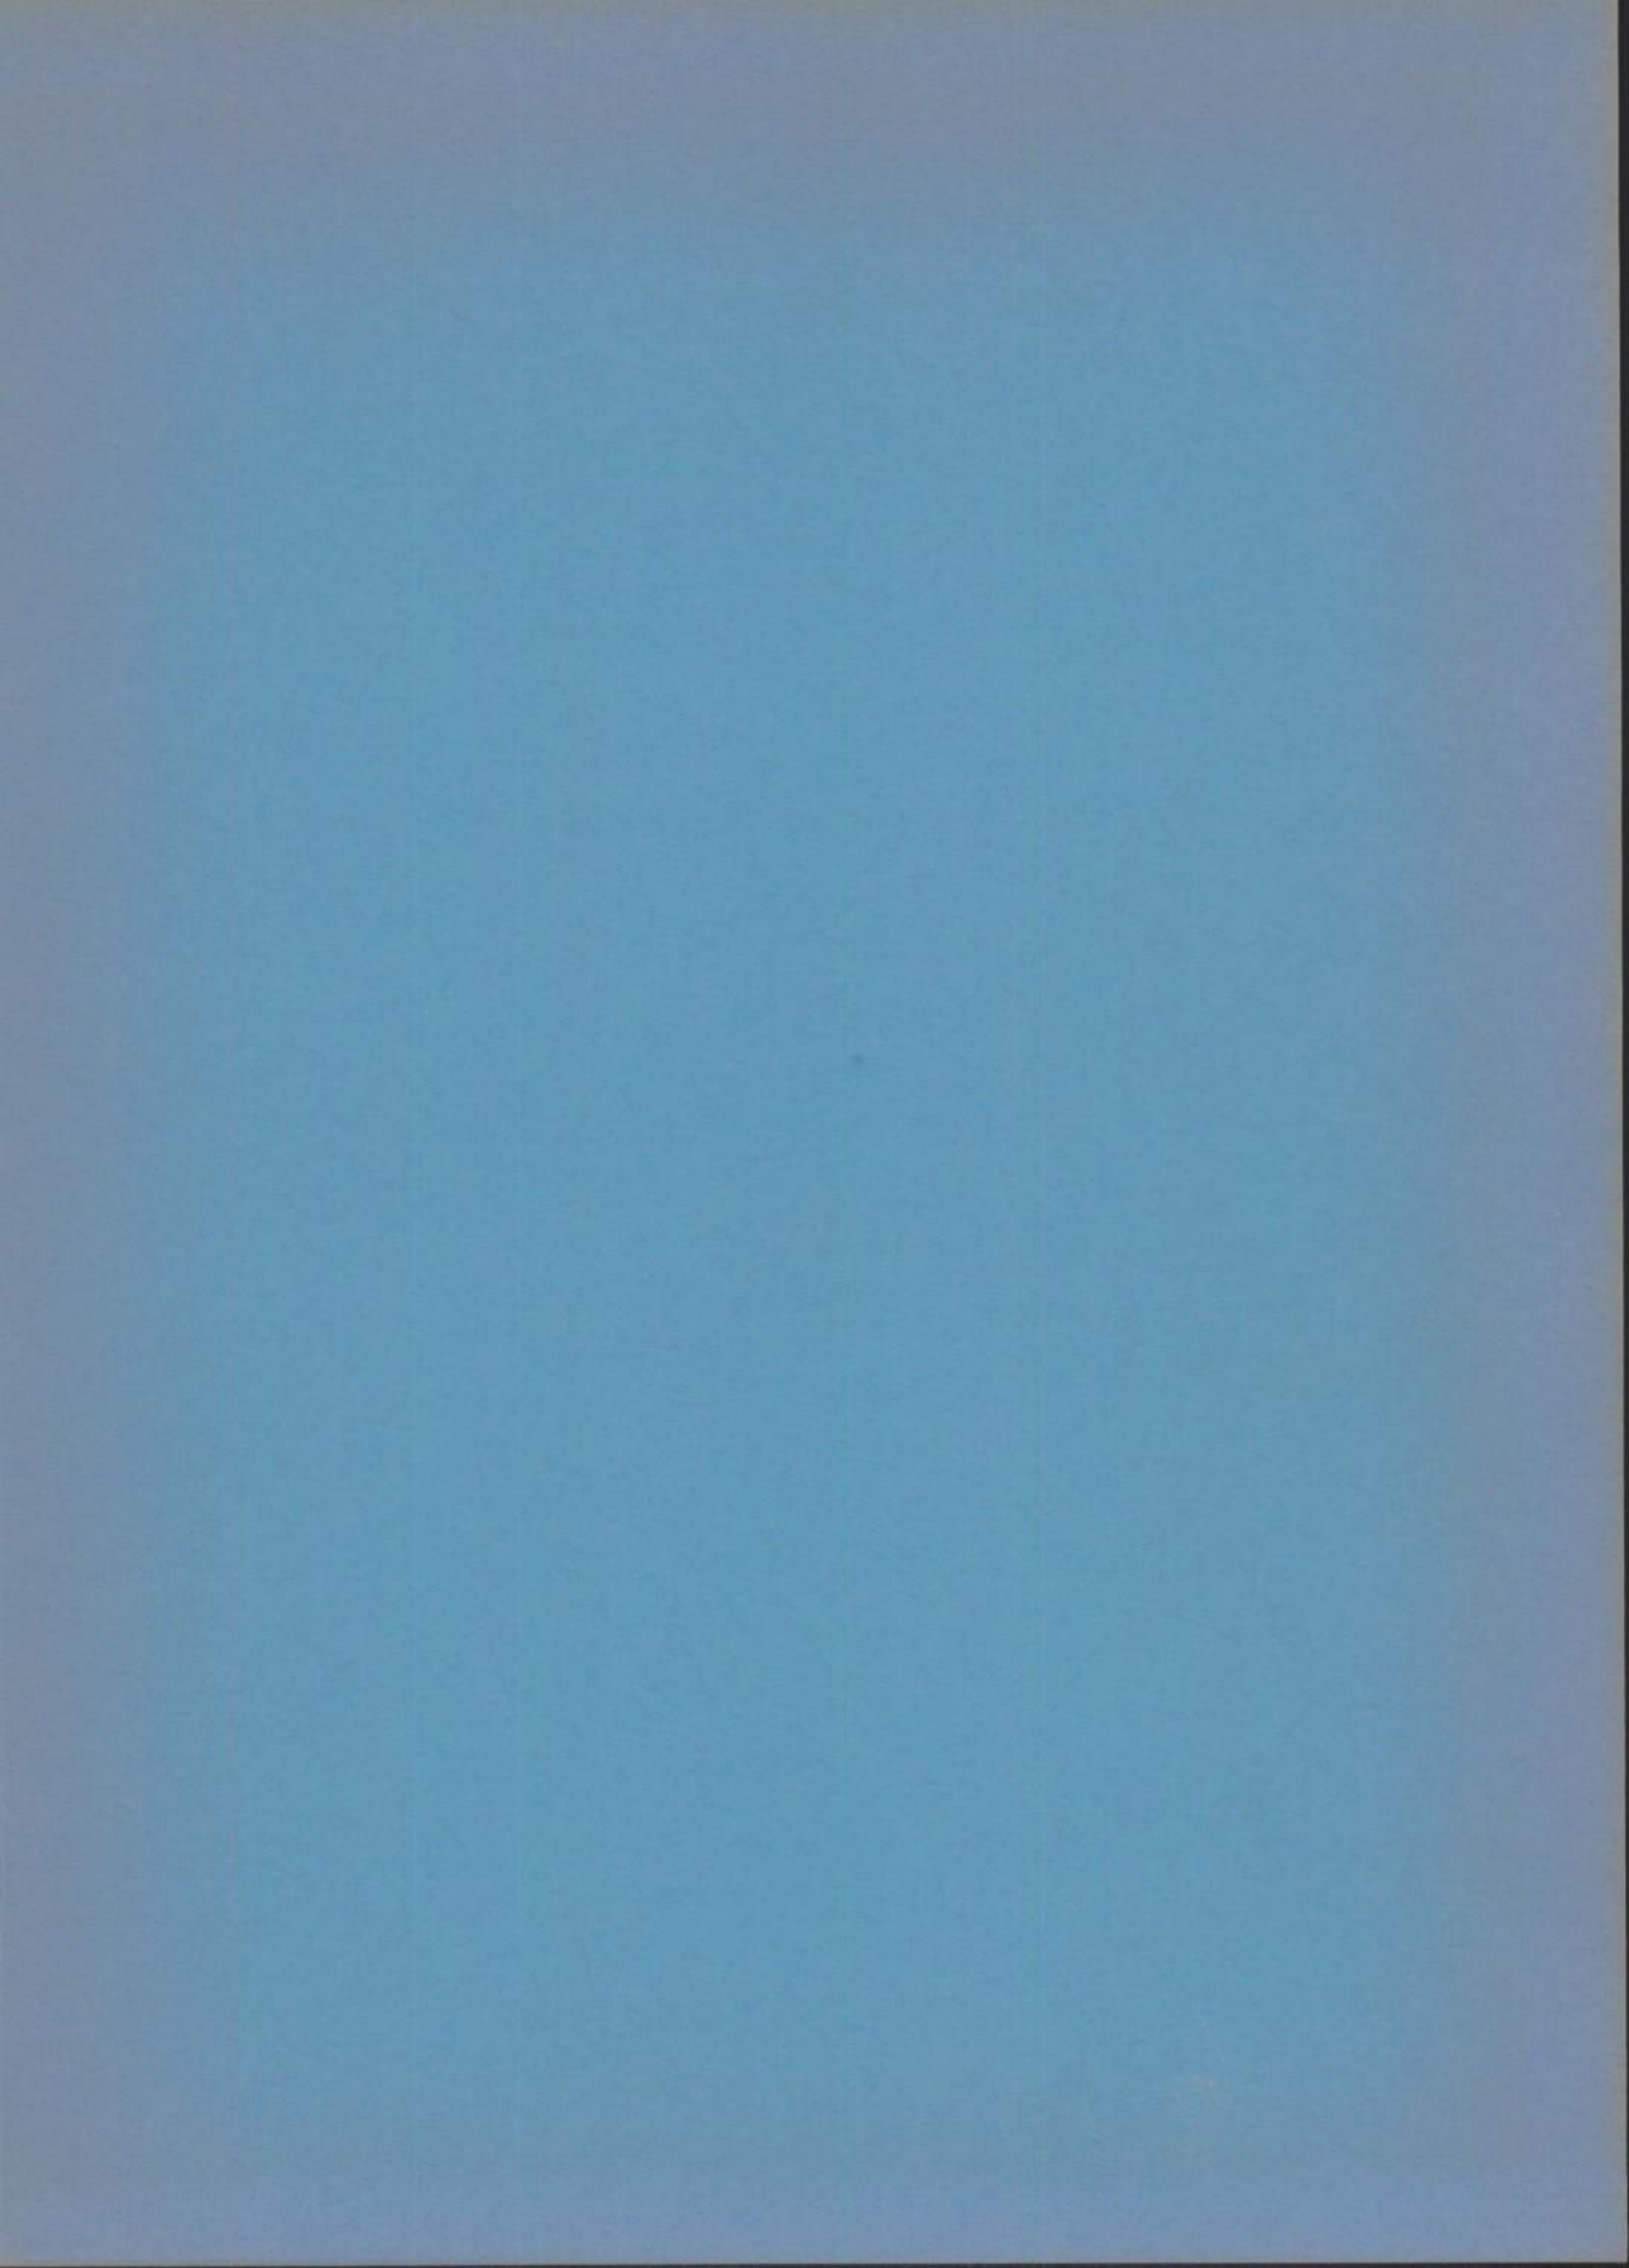

Dear Lynda,

Remember all the crazy times we've had together. To tell you the truth I don't think our problems will ever be solved, especially with you thinking of a new way to make the problems worse.

Since this book could never be complete without those two names to burn the pages out with I better say something. Some day I'm going to get you on a church and not for the usual reasons but to examine that thick head of yours. Remember all those days and nights wasted because of Brant and Beetle? I'll never forget. I couldn't if I wanted to.

You're the girl with the most problems I have ever listened to. My ears are beginning to pop out of my head.

I'll never forget all those rides past "Dams" then to White Plains then back to "Dams".

FOREWORD

The theme of the 1961 Peningian is Greek Mythology. Mythology is a full account of the lives of gods, deities and semi-deities. It represents the timeless tales that the ancients acquired and handed down through the centuries. We have chosen Greek mythology because it was among the Greeks that mythology first prevailed. Later on, the Romans adopted the Greek conceptions and changed them to their pleasing.

Mythology has been an endless source of inspiration for both poets and artists through the centuries. Our own epics, dramas, lyrics, novels, essays and orations are interwoven by the myths of ancient Greece and Rome. Consequently, in order to fully enjoy the beauty of literature and art we must have some knowledge of mythology. We have attempted to provide you with this knowledge in the 1961 Peningian.

As you will observe, we have chosen a specific god or goddess to represent the administration, faculty, activities and senior sections. These gods and goddesses possess characteristics symbolic of their respective sections.

Like the ancients, we too, the seniors of Port Chester High School, have acquired tales, tales of our four years at P. C. H. S. We have put the "tales" or highlights of our senior year in a new section entitled—1961 Senior Year Highlights.

The cover of the 1961 Peningian is in harmony with the theme. The lettering is of Greek style and the columns and the Parthenon in the background are representative of Greece.

As editor of 1961 Peningian, I would like to thank Miss Mary Pagidas for the time and aid that she has so generously given us in publishing the yearbook. I also want to thank Mr. Frank Errigo and his son, Dean, for the many hours of time they spent in producing the fine photography.

Finally, I sincerely hope that you will enjoy this yearbook as much as we have enjoyed preparing it for you. We have tried to make this one of the most outstanding yearbooks of this school for one of the most outstanding senior classes.

Respectfully yours,
Bill Ahearn, Editor

DEDICATION

MR. KENNETH M. ALLEN

We the Class of 1961 proudly dedicate our Peningian to a small man with a big heart. A gentleman who has always held the respect, admiration and affection of each of us. A gentle man, a teacher and an administrator, but most of all a friend — our Assistant Principal, Mr. Kenneth Allen.

ADMINISTRATION

ZEUS-JUPITER

Chief of the celestial deities is Zeus, called Jupiter by the Romans, the controller and ruler of the universe. As being the god of heaven, blessings and abundance are shed from his hands.

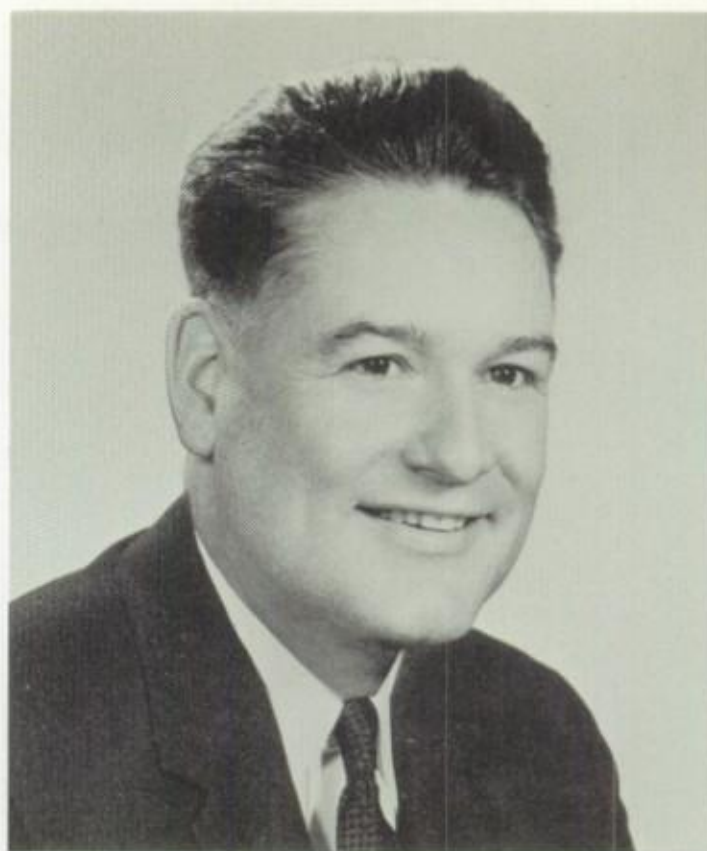

The ancients, however, were not content to regard Zeus merely as a personification of Nature; they regarded him also from an ethical point of view, from which side he appears more important. Zeus was heralded as the protector and defender of justice in the state. To Zeus, the ancients looked for guidance, safety and justice.

Our administration like almighty Zeus, the god of the strong and the protector of the weak, has generously given us guidance and justice which we shall never forget.

Athena, known as Minerva to the Romans, was worshipped by the Greeks as the goddess of wisdom and as the patroness of every branch of science, art and manufacture. Everything necessary to either the physical or intellectual welfare of mankind, was believed to proceed from her and to be subject to her influence. Accordingly, it was she who first taught mankind to manage the horse and to build ships; she also invented the flute and the trumpet. Athena was also called Athena Hygiea because she was believed to send pure atmosphere to promote the growth of the youth of the land.

It is little wonder why the Greeks erected the magnificent Parthenon in her honor, for she taught mankind to enjoy peace and instructed them in all that gives beauty to human life in art and wisdom.

Just as the Greeks looked upon Athena for wisdom, we too, the "titans" of Port Chester High School, have looked to our faculty for wisdom. During our stay at "Olympia," our faculty, like Athena, has established an atmosphere of serenity in which they have promoted our growth by inculcating in us the joys of art and wisdom.

ACTIVITIES

THE MUSES

Born on Mount Olympus, the nine Muses, who were daughters of Zeus and the goddess of Memory, represented the activities and arts of the ages. Originally nymphs of the fountains, the Muses were later assigned to individual branches of art. These patrons of joyous activity gave "life its bloom" by singing and dancing and helped to relieve the grief and sorrow in men's minds.

Our activities, like the Muses, represent a source of entertainment that has generously and continuously relieved our scholastic stresses and strains.

SPORTS

FOOTBALL

At the outset of the 1960 season one question grasped the minds of most local football fans. Would Port Chester, having lost the services of coach Ralph Fridgen and a majority of the 1959 squad, be able to again come up with a championship team?

In the Rams' opening game the question was emphatically answered. Under coach Frank Sniadack the Blue and White rallied to an impressive 26-0 win over Roosevelt, giving notice of even more spectacular things to come.

During the following weeks the Rams beat Peekskill 27-0 and Ossining 21-0. These contests featured sparkling performances by Lou Menick, John Mulvaney, and Angelo Ianello, all of whom were to receive All-County recognition.

Now the question was whether Port Chester would achieve the unbeaten, untied, unscored on record which they had barely missed the year before. All indications pointed to such an accomplishment, the team possessing good speed at all positions and having perhaps the largest defensive line in the school's history averaging 215 from end to end.

But the following week the "bubble burst" via a 36-6 victory over Edison Tech.

Undaunted, however, the Blue wave kept on rolling, Sleepy Hollow losing 28-6 and Saunders Commerce falling 26-0, both crushed by a devastating ground attack.

The stage was now set. Before two million television viewers over Channel 7 the rampaging Rams met the tired Tigers of Mamaroneck, the W. C. C. Championship being at stake. The Tigers, seeking revenge for 8-0 loss the previous year with the stacks exactly the same, nevertheless, again were defeated 28-13 in a thrilling contest which was not decided until the closing moments of play.

As a climax to a fine season, Port Chester played Greenwich 4-4 in the final outing for both schools. This was perhaps the most fiercely fought game of the year, both teams displaying bruising defenses. As a result, the game ended 0-0, Greenwich for the second year in a row frustrating the Rams' hopes for an all winning campaign.

Nevertheless, the 1960 season was by far one of the finest in the school's history.

VARSITY BASKETBALL

The unbelievable has finally happened! Local fans browsing through their evening papers, for the first time in 13 years, have been able to read about the Port Chester Rams winning a league championship in basketball.

This success story, however, did not begin this year but rather four years ago when Coach Bill Green predicted that it would take four years to build a championship aggregation. How right he was. The freshman of that year were to become, in their senior year, the champions of the W.C.C.C. and the first team in over seven years to have a winning record.

The Blue and White this year was a well balanced one with any of the five starters being able to score well. Outstanding was Hugh Kastrud, the mainstay of the team and a fine rebounder. Helping Hugh under the boards and in the scoring department were

Ang Ianello and Larry Lowic, perhaps the heaviest combination in Westchester this year. Rounding out the team in the guard positions were Steve Ellenbogen and Rich Guiffredo, with Ron Brown "the best sixth man in the W.C.C.C." also helping out at times.

In general, the season was an exciting one with the Rams playing a hard, fast, brand of basketball. The championship of the W.C.C.C. was not decided until the final game of the season in which Port Chester defeated Mamaroneck to finish with a 13-4 record.

It has been a long, hard, climb to the top, but the Rams have finally made it. For the players and students of the class of '61 it has been a memorable year, for Coach Bill Green it will always be "the year basketball came back to Port Chester."

The team was sparked by the excellent shooting of Skeets Dorsett and the flashy ball handling of Rich Daner. BASEBALL 1960

This year local fans were again pleased by a now familiar story, that of Port Chester again winning a league championship, the 3rd such feat in the last 4 years.

The teams success was due in a large measure to the fine pitching of Ted Massinello and the power batting of Paul Summa. The Rams managed to capitalize on rivals' mistakes although they were not a strong hitting team thus enabling them to finally clinch the W. C. C. pennant in the last game of the year against Scarsdale.

This season got off to a poor start, with the Blue and White receiving a decisive defeat at the hands of Mamaroneck. This, however, was to be one of the team's few losses, Mamaroneck, later on being defeated in what was eventually to prove the pennant deciding game.

In all, the Rams, under coach Anthony Zimbalati, enjoyed a very thrilling, as well as a victorious season. With many of this year's starters returning, the future seems all the more bright.

1960 TRACK

The track team, enjoying a fine 4 and 3 record this year, featured fine performances from many individuals. Don Logan and John Summa were outstanding sprinters and huddlers for the Rams, who were coached by Mr. Alfred Soquet.

HIGHLIGHTS

RETROSPECT

By Lawrence Lowic

Sometimes at night I walk the silent streets alone,
With no sounds to greet me, the world at rest.
When suddenly, stark and forbidding, from the darkness
Emerges, a structure of stone, of steel, of marble.
The sounds of day no longer dwell within,
Gone, leaving nothing but hope of a future return.

Often I wonder at such times as these
Of what this building be composed, my school by name.
At night there cannot be heard within its silent halls,
The laughter of students, the shuffling of feet,
The monotone of teachers, the buzzing of bells,
The rustling of papers, the creaking of desks.

But still more unheard or seen, those cherished moments,
To never be forgotten, but treasured in fading memories.
The first date, a cherry coke and pizza plain,
Those Friday night movies, a victory dance,
Crisp autumn days, the football games,
Long winters night study, the raptures of spring,
The Senior Prom, white carnations, a pretty smile,
Moonlite nights, warm summer breezes, soft sounds,
The glowing affections and lasting friendships.

The halls are silent, the sounds are not there,
Gone is the spirit, I long to know where.
From deep in the void of an eternal night,
Floating gently on soft waves of deepening emotion,
Comes the laughter, the voices, the images of years gone by.

I walk alone, ever so afraid,
But knowing within the depths of my despair, that
School is not merely of stone, of steel, of marble,
Rather of people, of dreams, of life itself.
The darkness blankets the sky, the wind stirs the trees,
I move absorbed in lonely contemplation,
Realizing now as never before,
That school will always be, the spirit, the soul, of youth.

THIS WAS OUR

YEAR 1961

SENIORS

MERCURY

The son of Zeus and Maia, Hermes was worshipped by the ancient Greeks as the messenger of the gods of Olympus. With his winged cap and sandals, and his staff, Caduceus, Hermes passes more swiftly than the wind over land and sea, executing the commissions of his father Zeus and the other gods of Olympus.

Though he doesn't represent any of the higher forms of intellectual life, he possesses in the highest degree that practical common sense which was so greatly valued among the Greeks.

Like Hermes, we seniors with Mercurial strength, speed, and splendor have "winged" our adventurous way through four years of profitable study to the end of a memorable flight, a flight that will live on as an imperishable memory.

VERONICA KATHERINE
AHEARN

Conservative "Ronnie", spends most of her time listening to Johnny Mathis records. In the future, she hopes to enter the nursing profession while living in California.

Biology Club 2; Red Cross 3; F. N. A. 2, 3; Softball 2.

JACKY ALEXANDER

Genial "Jacky" finds history her greatest dislike at this point in her life. Her future as a secretary might help in making her forget past experiences in this course of study, however.

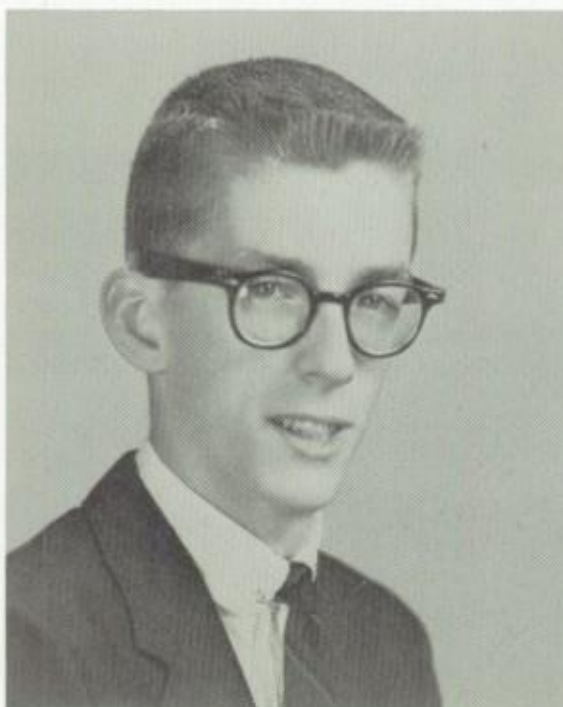

Choir 1, Vice-President 2, 3, 4; Aeolian 2; Softball 1, 2, 3, 4; Volleyball 1, 2, 3; Basketball 1, 2, 3, 4; Archery 1.
